Very good	Good	Needs improvmt

C O N T E N T	<p>Completeness, quantity of content: Has the report covered all aspects of the lab? Has the analysis been carried out thoroughly?</p>			
	<p>Correctness, quality of content Is the data correct? Is the analysis of the data correct? Are the conclusions correct?</p>			
	<p>Depth of understanding, quality of discussion Does the report show a good technical understanding? Have all the relevant conclusions been drawn?</p>			
	Comments:			
P R E S E N T A T I O N	<p>Attention to detail, typesetting and typographical errors Is the report free of typographical errors? Are the figures/tables/references presented professionally?</p>			
	Comments:			

Raw report mark	/ 5
Penalty for lateness	

The weighting of comments is not intended to be equal, and the relative importance of criteria may vary between modules. A good report should attract 4 marks.

*1 mark / week or part week.
Please use allowance forms to inform the teaching office about mitigating circumstances.*
